SCHOOL PLAN 2012 -2014

SCHOOL CONTEXT
Wangee Park School is a School for Specific Purposes in South Western Sydney region and is located in Lakemba. The school provides individual learning for up to 30 students with severe intellectual disabilities. All students currently enrolled have a physical disability and many students have sensory impairments and high support medical needs. The school provides educational programs for students from K to Year 12. The school has five classes. The school currently is supported by funding through the Priority School Program and National Partnerships- Low SES. The school has strong supportive links with both the parents and the wider community. All parents are provided the opportunity to participate in the development of their child’s Personalised Learning Plan (PLP) and the specific identified learning priorities to be embedded in their learning programs. 93% of families come from a Non English speaking background. 63% come from an Arabic speaking background, 11% from a Chinese background with a further 19% made up of families from Pacific Islands, Indonesian and Serbian backgrounds.

The school has interagency links with Age Disability and Home Care (ADHC) and The Cerebral Palsy Alliance for the provision of therapy services including speech pathology, physiotherapy and occupational therapy. The school employs the physiotherapy services of Therapy for Kids to provide consultation and support for students' physical positioning and mobility needs.

In 2012 the school developed individualised communication plans for each student. These plans were developed in consultation with a speech therapist and goals were shared with parents. Additional professional learning in the area of communication was provided to all staff and linked with the use of technology in the classroom to further enhance student engagement and learning. The school’s project under the Every Student Every School initiative focused on developing a Communication Assessment Tool which further supported students’ communication plans.

TARGET/S
- The percentage of students achieving the specific communication goal identified in their Personalised Learning Plan will increase from 66% in 2013 to 90% in 2014.
- By 2014, 60% of all students will achieve their specific numeracy goal in their Personalised Learning Plans.
- 100% of teachers in non-executive roles will undertake leadership of a curriculum area to support student learning.
- 100% of student Personalised Learning and Support Plans show evidence of access to the Australian Curriculum in English and Mathematics with appropriate learning adjustments.
- 100% of staff will implement the New English K-10 Syllabus with appropriate adjustments to suit all students.

### SCHOOL IDENTIFIED PRIORITY NUMERACY

<table>
<thead>
<tr>
<th>OUTCOMES</th>
<th>TARGETS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Increased levels of numeracy engagement and or achievement for every student.</strong></td>
<td>By 2012 the school has completed a bank of numeracy lessons across all strands. By 2013, 30% of all students will achieve their specific numeracy goal in their Personalised Learning Plans. By 2014, 60% of all students will achieve their specific numeracy goal in their Personalised Learning Plans.</td>
</tr>
</tbody>
</table>

### STRATEGIES

- **The use of Information and Communication Technologies (ICT) to support individualised numeracy learning goals.**
  - Staff surveys indicate an increase in the use of technology.  
  - Students are engaged with communication technologies to support numeracy.  
  - Staff and parents work collaboratively to create resources to support student numeracy goals.  
  - Parents attend workshops to learn about specific numeracy strategies.  
  - Parents create resources to support student achievement of numeracy goals at school and at home.  
  - Staff members receive additional professional learning specifically related to creating SMART goals in numeracy.  
  - Executive staff members review and observe numeracy teaching in classrooms as part of the TARS process to provide teachers with feedback.

- **Relevant resources are developed to support student numeracy goals.**
  - Staff and parents work collaboratively to create resources to support student numeracy goals.

- **Executive staff members to work with teachers ensuring consistency in teacher judgment and learning goals are appropriate and SMART.**
  - Executive staff members review and observe numeracy teaching in classrooms as part of the TARS process to provide teachers with feedback.

### INDICATORS

- Staff surveys indicate an increase in the use of technology.  
- Students are engaged with communication technologies to support numeracy.  
- Staff and parents work collaboratively to create resources to support student numeracy goals.  
- Parents attend workshops to learn about specific numeracy strategies.  
- Parents create resources to support student achievement of numeracy goals at school and at home.  
- Staff members receive additional professional learning specifically related to creating SMART goals in numeracy.  
- Executive staff members review and observe numeracy teaching in classrooms as part of the TARS process to provide teachers with feedback.
